## Cultural Centre "Dworek Białoprądnicki"

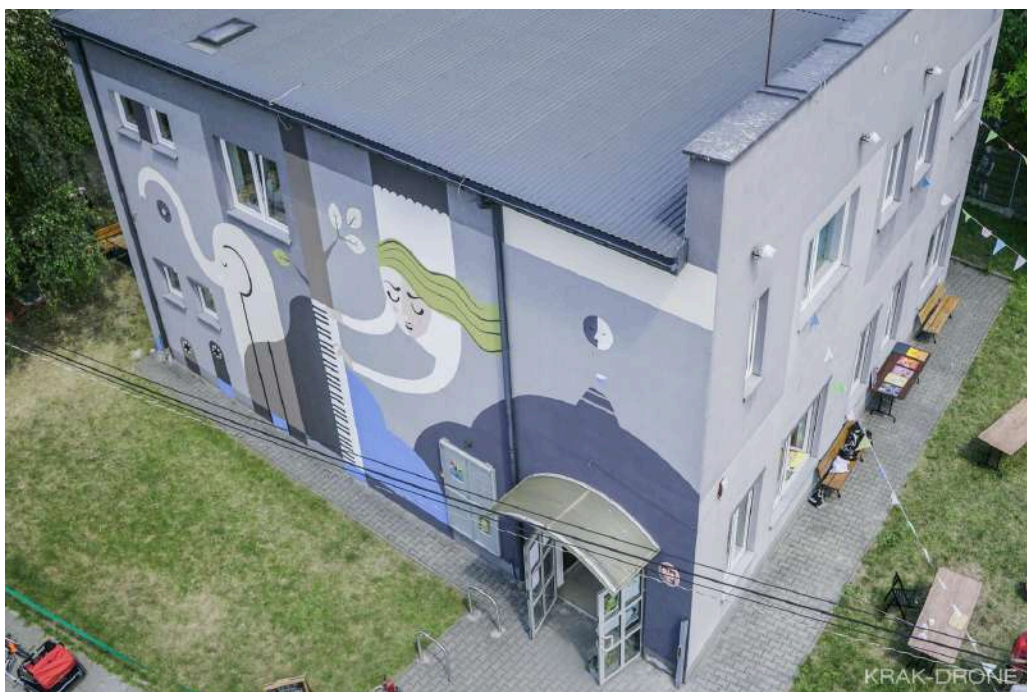

... or you can just call it "Dworek" :) It is a big interdisciplinary institution located in a historic manor house and presenting the most interesting cultural phenomena. Dozens of activities a month? A different event every day? Sounds impossible? It's everyday life in Dworek. **There is always something to do here, so if you have a lot of energy and you want to learn how such a large institution works from the inside - this is the place for you!** We organize concerts (including large summer music events), theater performances, film screenings, workshops, exhibitions, meetings on literature, travels or social issues and festivals. We cooperate with various artists, organizations, NGOs, city councils, schools and our Cultural Clubs. We run our internet TV station called Dworek TV. We also have a lot of regular arts & sports activities for people from every generation. We are open to the local community as well as foreigners living in Krakow. Working in Dworek, you will help us in organizing, promoting and preparing our events, but we hope you will also propose something on your own. You will have a chance to start your regular activity, create an international event or become a star of Dworek TV.

## Cultural Club Przegorzały

Cultural Club Przegorzały is a modern and cozy club located in a beautiful green district. The club activates and integrates the local community of all ages. **We want to prove that interesting cultural events take place not only in the city center but also in the suburbs.** The club regularly organizes exhibitions, workshops, meetings, concerts and competitions. We promote ecology and sustainable transport and we have a big garden just waiting for your green activities! **We are happy to organize events for the international community of Krakow.** Working at Cultural Club Przegorzały, you will help us in our daily tasks on event organization and promotion. We invite you to propose your own events, e.g. exhibitions, language conversations or art workshops. **A volunteer working at Klub Kultury Przegorzały also runs the website and social media of the IntegrART project, so if you like to write, create posts and stories - this is a great place for you.** During the summer and winter holidays you will conduct your own games and activities for children. Depending on your interests, you will have the opportunity to create a cultural offer for the local community, sharing solidarity and European values.

# Cultural Club Wola

An open and welcoming community hub located in the green district of Zwierzyniec, just 20 minutes from the centre of Kraków. Our aim is to create a warm and creative space for the local community. This cosy culture centre offers a wide range of artistic and sports activities for all age groups – from the youngest to the oldest. Regular classes include music, singing, painting, drawing, ceramics, contemporary dance, yoga, karate and many more. We also run weekend workshops, as well as small concerts and theatre performances throughout the year.

The heart of what we do is to provide a **safe and friendly place for people to meet and to inspire the community to bring their own ideas to life** – so that the centre truly belongs to everyone. We are here for all – regardless of beliefs, background or origin.

This summer, our building is set to undergo a full renovation, which will help us make the space even more inviting.

The centre also has a garden where outdoor activities can take place. Wola Cultural Centre also organises winter holiday activities for children, neighbourhood picnics, an annual writing competition, and various cultural events for the local community.

We're currently looking for a volunteer who would like to create and run their own regular workshops, events, or creative projects. **We offer you the space to grow – so we welcome independent, self-motivated individuals.** We're also hoping to find someone who enjoys working with **social media and creating photos and short videos** (Reels) to help promote our space online.

# ABOUT THE CITY

Our project will take place in one of the most beautiful cities in Poland. Krakow is a vibrant city where you can never get bored. This is partly due to the strong presence of students: over 100,000 students from Poland and around the world study in the city. The beautiful historic Old Town is listed as a UNESCO World Heritage Site. Dozens of monuments and museums attract tourists from all over the world. In Krakow, you will find a wide range of cultural events and festivals of all kinds, some also available free of charge. It's a perfect environment for creative thinking and actions. The city and its surroundings are also full of charming green areas, ideal for relaxation and outdoor activities. You will live in the very center of the city, which will allow you to take full advantage of its cultural, tourist and gastronomic offer. However, the host organizations are located in different, sometimes suburban, districts of Krakow. Thanks to this, you will get to know the diversity of the city and the usual life of its inhabitants better.

Krakow is located in the south of Poland. It is very well connected with the rest of the country. In their free time, volunteers can enjoy the proximity of national parks and mountains or visit other wonderful Polish cities and neighboring European capitals.
